Travel Fee depends on location and total miles from Taqueria

Q: What is the Service Fee on our invoice & what does it cover?

A: Effective 2022 a Service Charge will be added on to all caterings/events/taco bar kits as well as our bar fee if applicable. This fee can include various things depending on the event, guest count, location, etc. Examples include set up/tear down, paper products, flatware, and serving units/utensils, staffing, etc. A Service charge, also called a service fee, refers to the fee collected to pay for services that relate to the product. It includes material cost, direct labor cost, and direct overhead, and is directly proportional to revenue. As revenue increases, more resources are required to produce the goods or service. The service fee offsets labor and administration costs such as dish washing, packing for your event, customizing menus, clean up, site visits, working with rental companies, etc. The service fee is not a gratuity and is subject to state and local tax laws.

Sales tax is not included in price.

Be sure to have an accurate final guest count, keeping in mind we cannot guarantee that your guests may eat more than expected. It is better to have more than not enough.

**Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk of food borne illness. 2/17/22 undated*
