

My husband and I have made a tough decision to sell one of our Real Taste 570 trucks. We sadly decided on our little truck Frijole.

We feel like we are being stretched a little thin and want to concentrate and restructure internally. With the large purchase of the Bridge Tavern in South Williamsport this past April we need to focus our energies and shift some things around.

We decided on Frijole as she built our business and could do the same for someone else who is just starting out or who has always wanted to move forward with the Food Truck Dream. We hope to find a buyer that will take great care of her that has a passion for this business.
