Notes/Special Requests:

**Travel Fees depend on location and total miles from 222 Bridge Bar + Kitchen.
The service charge is not a gratuity and is subject to state and local tax laws**

The Service Charge covers various items depending on each individual Occasion/Event.

Effective 2022 a Service Charge is added to all catering/events/taco bar & bar fees if applicable.

The Service charge, also called a service fee, refers to the fee collected to pay for services that relate to the product. It includes material cost, direct labor cost, and direct overhead, and is directly proportional to revenue. As revenue increases, more resources are required to produce the goods or service. The service fee offsets labor and administration costs such as dish washing, packing for your event, customizing menus, clean up, site visits, working with rental companies, etc.

Additional fees may be incurred for items such as extra linen, action stations, beverage service, travel, or staff-intensive events. Please inquire with (BT) about additional fees.

The service fee is not a gratuity and is subject to state and local tax laws.

Be sure to have an accurate final guest count, keeping in mind we cannot guarantee that your guests may eat more than expected. It is better to have more than not enough.

A 3% surcharge is applied to all Credit Card Payments. The surcharge is not gratuity. Cash & Check Payments Encouraged. **Updated 11/24/2024**
